

## Update from Kenya

The boys are now settled in their new school and life is returning to normal for Life4Kids.

The boys are now in the following grades:

- One in Pre-Primary Level 2
- One in Grade 1
- Four in Grade 2
- Four in Grade 3
- Two in Grade 4
- Three in Grade 6

The young boys now attend Newlife Premier School. Here is their photo in school tracksuits.

- Two in Level 7 (Junior High)
- One in Level 8 (Junior High)
- Two in Form 1 (High School)
- Four in Form 2 (High School)
- Two in Form 3 (High School)
- Four joining University and College
- Five in final years of University and College

Life4Kids is justifiably proud that five boys are about to graduate from university and college and begin the next stage of their lives.

Similarly, having four boys entering university and college is a major achievement. Two of those boys are on partial scholarships.

It is also noteworthy that three of the high school boys are currently living with their families. Life4Kids pays for their education and provides support for these three boys. Life4Kids values the boys living in a family setting if possible while encouraging (and financing) continuing education.

These boys are entering high school:

## The Boys Enhance the Home!

The boys have taken a real interest in the new home. They have been planting trees in the evening. Among the trees planted are mango, orange, and passion fruit trees.

## Message from Jane

Jane Wasike, CEO of Life4Kids in Kenya, sends the following message:

"On behalf of the boys and staff, we extend our deepest gratitude for your love and support. Together we are changing lives. We eagerly anticipate your continued support as we provide a nurturing, loving and supportive home for these wonderful children."
