

Proposed Trip to Life4Kids

We are excited to announce that the Rotary Club of Midland is planning a group trip to Nairobi to visit the Life4Kids home. The proposed dates are October 30 to November 9, 2024. The trip will include working at the home, visiting with the boys and a 3-day safari to Masai Mara National Reserve.

Boys Back in School

Jane reports that the boys have successfully transitioned back to school after their five-week vacation. Thanks to the staff for all their hard work while the boys were home. Jane has proudly announced that all the boys are excelling in their studies.

Hospitalizations

We were saddened that two of the little boys have been admitted to hospital. One had a serious infection. The other had malaria. Both boys contracted their conditions while visiting with family during the school vacation. Both boys are back home and enjoying the company of their "brothers."

Financial Crisis in Kenya

Kenya is facing increases in food prices and daily commodities. This has impacted the cost of living, particularly for vulnerable communities. Jane points out that the projected increase in food prices illustrates the need for continuing support. Many supporters give selflessly. If you have not recently supported Life4Kids, your help would be appreciated.

Small Scale Farming

Life4Kids in Kenya has embarked on a new initiative which involves the cultivation of rabbits, chickens, and ducks. The aim is to impart valuable skills in agriculture and animal husbandry for the boys and to promote self-sufficiency and sustainability for the home.

Jane Extends Gratitude

Jane sends this note to our supporters: *"I extend my heartfelt gratitude to our generous sponsors, who continue to support our noble mission. Your contribution plays a pivotal role in transforming the lives of these children, enabling us to provide them with a nurturing home environment and access to quality education. Your generosity is truly appreciated and makes a significant difference."*
