

## Update on Boys:

We are pleased to confirm that all the boys are doing well in school and doing well at home. This picture shows boys studying in the new library built during the Midland Rotary visit in November.

## New washing machine:

Thanks to the financial generosity of several Life4Kids supporters, we have been able to provide funding for the purchase of another washing machine for the home. This greatly eases the workload for staff and improves efficiencies.

## Challenges in Kenya:

The economic situation in Kenya is very difficult. The cost of basic commodities is increasing. In addition, recent political unrest has made life more challenging since even seeking medical help in an emergency can be risky. Jane has recently reiterated her gratitude for supporters in Canada who made it possible to purchase a home in a safer neighbourhood.

[Shown are boys at computer stations provided during November Midland Rotary visit.]

## Empowering our older boys:

We are pleased to share that one of the older boys recently received a new motorcycle from his sponsor in Canada so he could start up a taxi and delivery business.

## Water supply:

Water to service the home had been provided from a neighbouring well. During roadwork construction, pipes were destroyed, and the neighbouring owner is not replacing it. So, the home was forced to rely on water being trucked in, which was expensive. We're happy to be able to report that, thanks to your generosity, Life4Kids Canada provided funding to the Kenyan home to provide for connection to another well water source.

[Shown in picture is the garden planted during the recent visit.]

## Thanks from CEO Jane.

*"From the bottom of my heart, thank you to all our partners, sponsors, and friends. Life4Kids continues to exist and grow because of your faith in this mission. We see the impact of your kindness, not just in numbers or projects, but in the smiles, healing, and futures of every child we care for."*
