Trip to Kenya

Have you ever considered visiting the Life4Kids home in Kenya. We’re planning another trip. Do you want to join us?

A Season of Compassion, Courage & Love

As we continue this journey of serving the most vulnerable, we are reminded that every month at Life4Kids carries its own testimony. This season has been marked by courageous rescue, steadfast service, and the kind of love that changes destinies. This month, we honour a remarkable servant leader within our home, Gladwel, and we share the moving story of the rescue of Musa, a precious two-year-old boy.

Celebrating Gladwel’s Faithful Service

This month, we celebrate Gladwel, a devoted caregiver and a cornerstone of Life4Kids for more than ten years.

She is a graduate social worker whose life reflects dedication, integrity, and deep compassion. For over a decade, she has walked faithfully alongside vulnerable children, standing in the gap where protection, advocacy, and love are needed most.

Child Spotlight – Musa

Recently, we rescued Musa, a two-year-old boy whose life story is nothing short of miraculous. Musa was born on the streets to a mother living in homelessness. From his first breath, survival was his daily reality. He has never attended a medical clinic. He has never experienced stable

shelter. His tiny body carries the evidence of hardship; he currently has a very low blood count and is battling infection. And yet, he is here. Rescuing Musa was both

urgent and heartbreaking. When he arrived at Life4Kids, he was fragile & medically vulnerable. Our team immediately sought medical attention to begin addressing his health needs. He now receives treatment, close monitoring and nourishment. Despite everything he has

endured, Musa carries a quiet strength. His life is a testimony of resilience. We believe deeply that his story is only beginning. At Life4Kids, Musa will receive: medical care, nutritional rehabilitation, emotional safety, love and nurturing, stability and structured daily routine, the opportunity to grow, learn, and simply be a child.

With Deep Gratitude

As we reflect on stories like Gladwel’s and Musa’s, our hearts overflow with gratitude. Your faithfulness is the reason rescue is possible. Your generosity becomes medicine, shelter, school fees, salaries for dedicated staff, food on the table, and hope in fragile hearts. Because of you: a child born on the streets now sleeps safely, medical care is accessible to the most vulnerable and the cycle of abandonment is interrupted by love. You are not distant supporters; you are active participants in transformation. You are rewriting stories with us. Thank you for believing in children who had no voice. Your love travels across nations and becomes tangible hope here in Kenya, Africa

With profound gratitude and deep respect,

Jane Wasike
Executive Director,
Life4Kids Kenya
